The NATIONAL TIME 901 Series Addressable Module assemblies provide a convenient and compact method to install D900 Series Control and Monitor modules. Modules are pre-wired to large terminal blocks to provide easy connection to large gauge wire. Terminals are clearly identified and can be labeled with site specific nomenclature minimizing installation and service effort.

Any combination of two Digicomm™ addressable modules are available such as Control A/V modules for speaker outputs or Control I/O modules for auxiliary connections. Refer to the DigiComm™ Addressable Module bulletins for specific capabilities and electrical ratings. The assemblies are available with a single module or two modules occupying the same compact footprint.
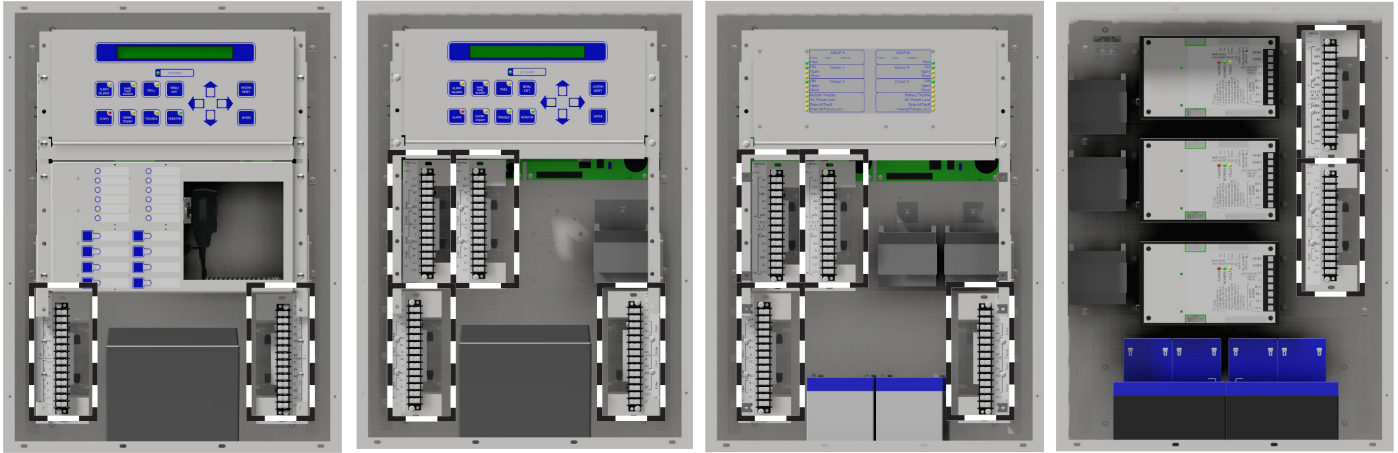

As many as (4) Dual Modules can mount to an A901-CHASSIS-CP chassis in a 901-FACP or NACP depending upon user control options. Two mounting locations are also available on the A901-CHASSIS-AMP for amplifier activation and speaker zone control.

Benefits:

Compact Footprint

Large Terminals

Terminals Up Front for Easy Access

Easy to Read Labels

Write-in Circuit Designations
Simplify Install and Service

Modules Mount in Cabinet
Eliminating Electrical Boxes

Single or Dual Module Mounting
Available

UL Listed

Possible Mounting Locations:

901-FACP w/Mic Chassis   **901-FACP Chassis**   **901-NACP Chassis**   **901-AMP Chassis**

Note - Locations shown not allowed if A901-LA-xxxx Annunciators are used in front. Shown with A901-BLANKs removed.

Specifications

A901-CTRL AV: Single D900-CTRL A/V (See Bulletin F-353).

A901-CTRL AV-2: Two D900-CTRL A/V Modules. Circuit input (Vext) Common to both A/V modules.

A901-CTRL IO: Single D900-CTRL I/O Module. (See Bulletin F-354)

A901-CTRL IO-2: Two D900-CTRL I/O Modules. Terminals for Class B Style Input Only.
(2) Form C Relay Outputs.

A901-CTRL-AVIO: One D900-CTRL A/V, One D900-CTRL I/O. Terminals for Class A or B Supervised Output, Class B Supervised Input, Form A (Normally Open) Relay.

Ordering Information

Part No.	Description
A901-CTRL AV	901 Series Single Control A/V Module, Mounting Bracket and Terminal Block
A901-CTRL AV-2	901 Series Dual Control A/V Module, Mounting Bracket and Terminal Block
A901-CTRL IO	901 Series Single Control I/O Module, Mounting Bracket and Terminal Block
A901-CTRL IO-2	901 Series Dual Control I/O Module, Mounting Bracket and Terminal Block
A901-CTRL AVIO	901 Series Combination Control A/V and I/O Module, Mounting Bracket and Terminal Block
